

- 88 Australian Dogs not breeding at home. (2)
- 89 Capra tharal breeds easily with domestic goat
- 93 Iron (I) Boas & ferret boas striped there is a relation of long talent character, as
- 94 Hair (I) laid in Indian Boas mostly & sap. Notes (well as Tucks & Mittles.
mem. W. T. Linn.)
96. Bos got even fertile see Griffiths & Burrows & Herington
- 101 Poter's brand of horse jaw in Morlett, allured (2)
- 98 Currier says Jackall come nearest to Dog (2)
- 106 Morlett's always in temperate countries (Cuba Bloodhead, Egyptian etc) Dr. L
- 119 Difference in gestation in domestic animals & Ispier
- 136 The Siberian race of Wolves easily tamed p. 148 various cases of
- 152 Pallas on copy of Black women & Dogs (2)
- 155 says Black & white women keep separate from others (see Mendel's paper) (Ch. 5.)
- 154 Douth on distinctness of American & European Wolves
- 168 The Red wild Dog of India destroys young Felidae

It would appear that greater the
difference, as in pups, between
parents, greater the fertility,
or long as difference
is not connected with
generative system.

Fertility is not consequence
of difference in size.

Incubation & perinatal
losses can be varied.

What a case of comparison in the
Carrière with as many other & what a case
especially the Diary - Carrière
